

is coming to your area...

Attention preschool teachers and directors: don't miss this chance to further your education, gain new ideas and insights, and network among peers!!

Preschool Fundamentals: Hands on Training (H.O.T.)

This is Part 2 of the Preschool Fundamentals course which provides gymnastics movement education geared towards teachers, instructors, and coaches working with preschoolers.

This is a live, hands-on training course taught by a National Instructor. Course topics include fundamental movement for children, class safety overview, games, activities to avoid, manipulatives, lesson planning, inclusion of music, thematic teaching, parent/child teaching, and the use of apparatus. This is a great hands-on follow-up to the theory course, with course instructors demonstrating practical examples of many of the concepts taught in Part 1. (It is recommended to take Part 1 – which is offered as an online course - first, but not required.) *Please note* both portions of the course provide a certificate of completion, however both must be completed in order for an individual to receive USA Gymnastics University credit.

Where:	Gymnasion, 1 Col. Gelardi Dr., Kennebunk, ME 04043
When:	Saturday, May 14, 2011 from 1:00 p.m. – 5:00 p.m.
